THE only thing to do with the "Town knocker" is to kick him out. Tolerate him for a minute, and he spreads like an epidemic all over the community. He is the original "Calamity Howler" and "Bird-of-Ill-Omen." He is never so happy as when he can persuade other people to think the same way as he does. If allowed to "get the floor," he will knock the pins from under the best proposition on earth. He is against every form of improvement, and if he converts enough people to his way of thinking, the town will come to a dead stop. After having killed everything, he glories in the fact that nothing can be done for the town. It is doomed. The only thing to do with the "Town Knocker" is to head him for the cemetery. His habit of knocking is so infectious that it has been known to spread among some of the best people. Kick the knocker out.
